PHYS 555B Spring 2007 Advanced Computational Physics Initial Survey

Name:

Name of account (or "none") on Physics & Astronomy server, `physics.ubc.ca`:

Other machines/systems that you can access, including home systems:
(For home systems indicate what type of Internet access you have.)

Research area (grad students only):

Previous computational physics courses/experience:

Programming language you know best:

Text editors and/or word processors with which you are comfortable:

Level of proficiency (use 0-5 for "none" through "fluent") in:

Unix:

C:

C++:

Fortran 77/Fortran 90:

Java:

Maple:

Mathematica:
